

**Past or present used to, would and Present Simple speaking game**

*Make a statement about your past or present with the grammar taken out, e.g. "Jog five miles a day". Your partner will make what they think is a true past or present sentence about you using those words, e.g. "You would jog five miles a day" or "You (often) jog five miles a day". Tell them if they are correct. After discussing that if you like, switch roles and do the same again. Use "would" for past habits, "used to" for past states, and Present Simple for current habits.*
